TO WHOM IT MAY CONCERN

This letter serves to confirm that the Faculty of Education at Nelson Mandela University has a working relationship with the Institute for Applied Science and Commerce (IFASCO). The office of the Dean of Education supports the work that they do with the Matric rewrite programme. Their approach to uplifting rural communities through community-based and community-driven programmes that provide the youth with skills and employment opportunities is commendable. This speaks to the values that we, as a Faculty of Education, strive to live out through our community engagement entity and our scholarship. This institute promises to develop to greater heights as it lives up to its mission of conducting innovative community based participatory research projects and youth development.

Sincerely,

Dr Muki Moeng
Executive Dean
